G & H Associates Limited

Issue 1

Innovation to Realisation to Exploitation

Accessing Grant Funding

GHA is specialist consultancy which has been working within the Framework Programmes for over 16 years, providing information, advice and support to academic and commercial organisations, across all industrial sectors, wishing to participate in European research and development projects.

GHA

At GHA we pride ourselves on being the experts in reading the small print and guiding you through the strict requirements when submitting an application to the European funding authorities. We strive to deliver the right funding route for your organisation and are keen to work with you, to ensure the process runs smoothly and effectively.

We at GHA understand that the decision to undertake an R & D project is significant for any organisation. Therefore offer an initial consultation where a brief overview of the potential funding opportunities is outlined. GHA will then undertake an evaluation of your project synopsis, providing feedback and recommendations on potential opportunities.

Grant Funding Framework

Horizon 2020 is the new financial instrument implementing the Innovation Union, a Europe 2020 flagship initiative aimed at securing Europe's global competitiveness to address societal challenges by helping to bridge the gap between research and the market by, for example, helping innovative enterprise to develop their technological breakthroughs into viable products with real commercial potential. This market-driven approach will include creating partnerships with the private sector and Member States to bring together the resources needed.

GHA Services

GHA provide a bespoke service of support to meet your organisations exact requirements within

Information & Advice on EU Programmes and Financial instruments.

Evaluation of Ideas to confirm applicability to relevant areas and calls.
