RE: Testimonial

“Our work with GH Associates aimed to secure investment within the Horizon 2020 EU Funding. We were thrilled when Clare, Lauren and Jackie managed to secured funding for just under €2,000,000 for an innovative IT software project. The funding has also enabled us to forge closer ties with our local University who will be supplying some expertise and recent graduates.

What we appreciated most about working with the team was their ability to cut through the red tape in a manner that was understandable to the “man in the street” and most importantly deliver the result that we were all working so hard for”

Clive Paul, Managing Director, TES Ltd, September 2015
